

Tell Congress: Fix – Don't Patch – Medicare Today

Dear patient:

I love my Medicare patients, but Congress is making it harder and harder for me to continue to care for them.

Doctors can no longer afford to subsidize Medicare.

For 10 years, doctors have pleaded with Congress to fix Medicare. For 10 years, Congress has ignored us and allowed the problem to get worse.

Congress understands the problem but has refused to take action for years. Every delay hurts more Medicare patients. The time for Congress to act is now.

If Congress and President Obama really want health system reform, they must fix the Medicare system. We need a rational Medicare physician payment system that automatically keeps up with the cost of running a practice and is backed by a fair, stable funding formula.
