

Project Access Dallas Physician Volunteer Sign-up

There are several options available. Most Primary Care physicians will accept up to 5 or more patients per year and manage their care throughout the year (or as long as they qualify for enrollment in Project Access). Specialty Care volunteers will see a patient once or twice, so they usually accept up to 10 or more patients per year. However, the choice is yours and we are grateful for whatever level of participation you decide.

Yes, I will volunteer my time to Project Access. I will donate my time as a:

Primary Care Volunteer. The number of patients I will treat each year is __ 5 __ 10 __ Other

Specialty Care Volunteer. The number of patients I will treat each year is __ 10 __ 15 __ 20 __ Other

In order to allow seamless care coordination in the medical treatment of the patient, please provide us the following information:

Name: _____

Specialty: _____

Address: _____

City: _____ State: _____ ZIP: _____

Tel: _____ Fax: _____

Name of the ancillary providers you use (X-rays, imaging centers):

If you are a specialty provider who uses anesthesia services, who do you use?

What hospital affiliations are you with?

I would prefer not to see patients in my office, but would be willing to volunteer at a community clinic.

How did you hear about Project Access Dallas?

_____ Please contact me. I have additional questions regarding my role in Project Access Dallas

FAX this page to PAD at 214-941-3351. No cover needed.
