

Dear Physician,

We are very excited to announce that, **effective immediately, the \$50 annual subscription fee for DCMS DocBook is waived due to the generosity of Texas Medical Liability Trust (TMLT) and their continuous and loyal support of organized medicine. You receive this phenomenal app completely free!**

In late 2009, DCMS announced the release of DCMS DocBook, a first-of-its-kind iPhone membership directory app. DocBook is a revolutionary tool designed to connect physician members. It is a fast and efficient way to search for a physician or pharmacy within Dallas County.

DocBook was designed by physicians, for physicians and allows members to view a colleagues contact information and with just one click from their profile you are able to text, call or e-mail your physician colleagues who are members of DCMS/TMA.

Since its inception in 1979, TMLT has stood for and with Texas physicians as they engage in the support of organized medicine across the state. With the help of TMLT we are able to bring you this offer as a tangible benefit of membership.

Remember—this app is also available for the iTouch and soon the iPad!

We hope that you'll join us in thanking TMLT for this opportunity and that as always, you are getting the most out of your DCMS membership.

To download DCMS DocBook, go to www.dallas-cms.org/docbook.cfm.
